The Editor
Journal of Endocrinology, Metabolism and Diabetes of SA

Dear Editor,

Review article: Insulin resistance induced by antiretroviral drugs: Current understanding of molecular mechanisms

Professor Crowther solicited a submission earlier this month. I enclose a review article that we have produced for this purpose.

The authors are:
W I W Ismail, BSc (Hons), MSc
J A King, BSc (Hons), MSc, PhD
T S Pillay, MBChB, PhD, FRCPATH (UK), FCPATH (SA)

Corresponding author: Professor Tahir Pillay; Email: profts.pillay@uct.ac.za; Tel: 021-406-6192; Fax: 021-448-8150; Address: Division of Chemical Pathology, Private Bag X3, Observatory, Cape, 7935

On behalf of the co-authors I declare the following: The article, including figure, is original and there is no third party contribution. All authors contributed substantially to the manuscript to justify authorship. There is no ethics approval required and there are no conflicts of interest.

Thanking you in advance

Yours sincerely
